## Profile

As a software development professional with a passion for technology and its ability to improve daily life, I am dedicated to honing my skills in Front-end Development. With a strong foundation in software development principles and a commitment to creating innovative solutions, I want my technical expertise to make a positive difference in the world.

## Experience

### Frontend Engineer at Gateway ICT, Erbil

Oct-2022 — Mar 2023

- Integrating payment into the website.
- Developing a responsive and pixel-perfect user interface using Sass.
- 100% test coverage on the developed components using jest and RTL.
- Work in an agile (scrum) environment.

## Software Projects

### [FIB Shop](#)

FIB Shop is a mock e-commerce platform showcasing FIB Payment integration for buying products online, (React, Context, Sass, Jest, rest API, ES6).

### [Order Meals](#)

Order Meals allows users to easily purchase meals from a responsive interface with animations, retrieved from a Firebase.
